Introduction

For the rest of the paper, please use 10 point Times New Roman. This document explains and demonstrates how to prepare your camera-ready manuscript for *ICEBM 2016 Proceedings*. Please, read these instructions and follow the outline of this text. The text area for your manuscript must be 17 cm wide and 25 cm high (6.7 and 9.8 inches, resp.) of A4 size paper (approximately 21 x 29.7 cm or 8 x 11 inches).

All manuscripts must be in English and must not exceed **5 pages**. Please keep a second copy of your manuscript in your office (just in case anything gets lost in the mail). When we received the manuscript, we assume that the corresponding authors grant us the copyright to publish the manuscript in the proceeding. Should authors use tables or figures from other published manuscripts, they must obtain the right to include the materials from the corresponding publisher.

Please do not use boldface typing or capital letters except for the section headings (cf. remarks on section headings, below).

Organization of The Text

The text should include (but not limited to) the **Introduction, Methods or Materials and Methods, Results and Discussions, Acknowledgement (if necessary) and References**. At the final section of the paper please describe authors' bibliography.

Section Headings

The section headings are in boldface capital and lowercase letters. Second level headings are typed as part of the succeeding paragraph (like the subsection heading of this paragraph).

Page Numbers

Do not print page numbers.

Tables

Tables (refer with: Table 1, Table 2, ...) should be presented as part of the text, but in such a way as to avoid confusion with the text. A descriptive title should be placed above each table.

Special Signs

For example, $\alpha\gamma\mu\Omega () \geq \pm \bullet \Gamma\{11 \bar{2} 0\}$ should always be written in with the fonts Times New Roman.

Figures

Figures (refer with: Fig. 1, Fig. 2, ...) also should be presented as part of the text, leaving enough space so that the caption will not be confused with the text. The caption should be self-contained and placed below the figure. Utmost care must be taken to insert the figures in correct alignment with the text.

Equations

Equations (refer with: Eq. 1, Eq. 2, ...) should be indented 5 mm (0.2"). There should be one line of space above the equation and one line of space below it before the text continues. The equations have to be numbered sequentially, and the number put in parentheses at the right-hand edge of the text. Equations should be punctuated as if they were an ordinary part of the text. Punctuation appears after the equation but before the equation number, e.g.

$$c^2 = a^2 + b^2$$

References are listed at the end of the paper in alphabetical order of the last names of the first authors and referred in the text by the last name and the year of publication. References for journal, books, electronic book, chapter in book, chapter in electronic book, proceedings and online document is according to **American Psychological Association (APA)** style.
